The proprietor, in calling the attention of the public to this preparation, dops so with a feeting of the utmost costingness in its virtues and substitution to the diseases for which it is recommended.

It is no new and untried article, but one that has stood the test of a ten years trial before the American people, and its reputation and sale are unitvalled by any similar preparations extant. The testimony in its favor given by the most prominent and well-known physicians and individuals in all parts of the country is immense, and a care-ini peruesi of the Almanac, published annually by the propiletor, and to be had grain of any of his Agenta, cannot but satisfy the most skeptical that this remedy is really deserving the great celebrity it has obtained.
